PREFACE

Industrial Arts Index completes its forty-third year with this volume, cumulating the monthly issues published from December 1954, to and including November 1955. Changes of name and other changes are reported in the List of Periodicals Indexed.

Among the staff changes, Samuel Sager resigned early in the year and Barbara S. Chislow joined us later.

We are again most grateful to Jane Capewell Luhks who has broadened the scope of her contribution to our pages, and we take great pleasure in announcing that Doris Dart who has rendered such invaluable service in indexing chemistry and physics, is now a full-time member of the staff of Industrial Arts Index.
